As of 02/26/2013

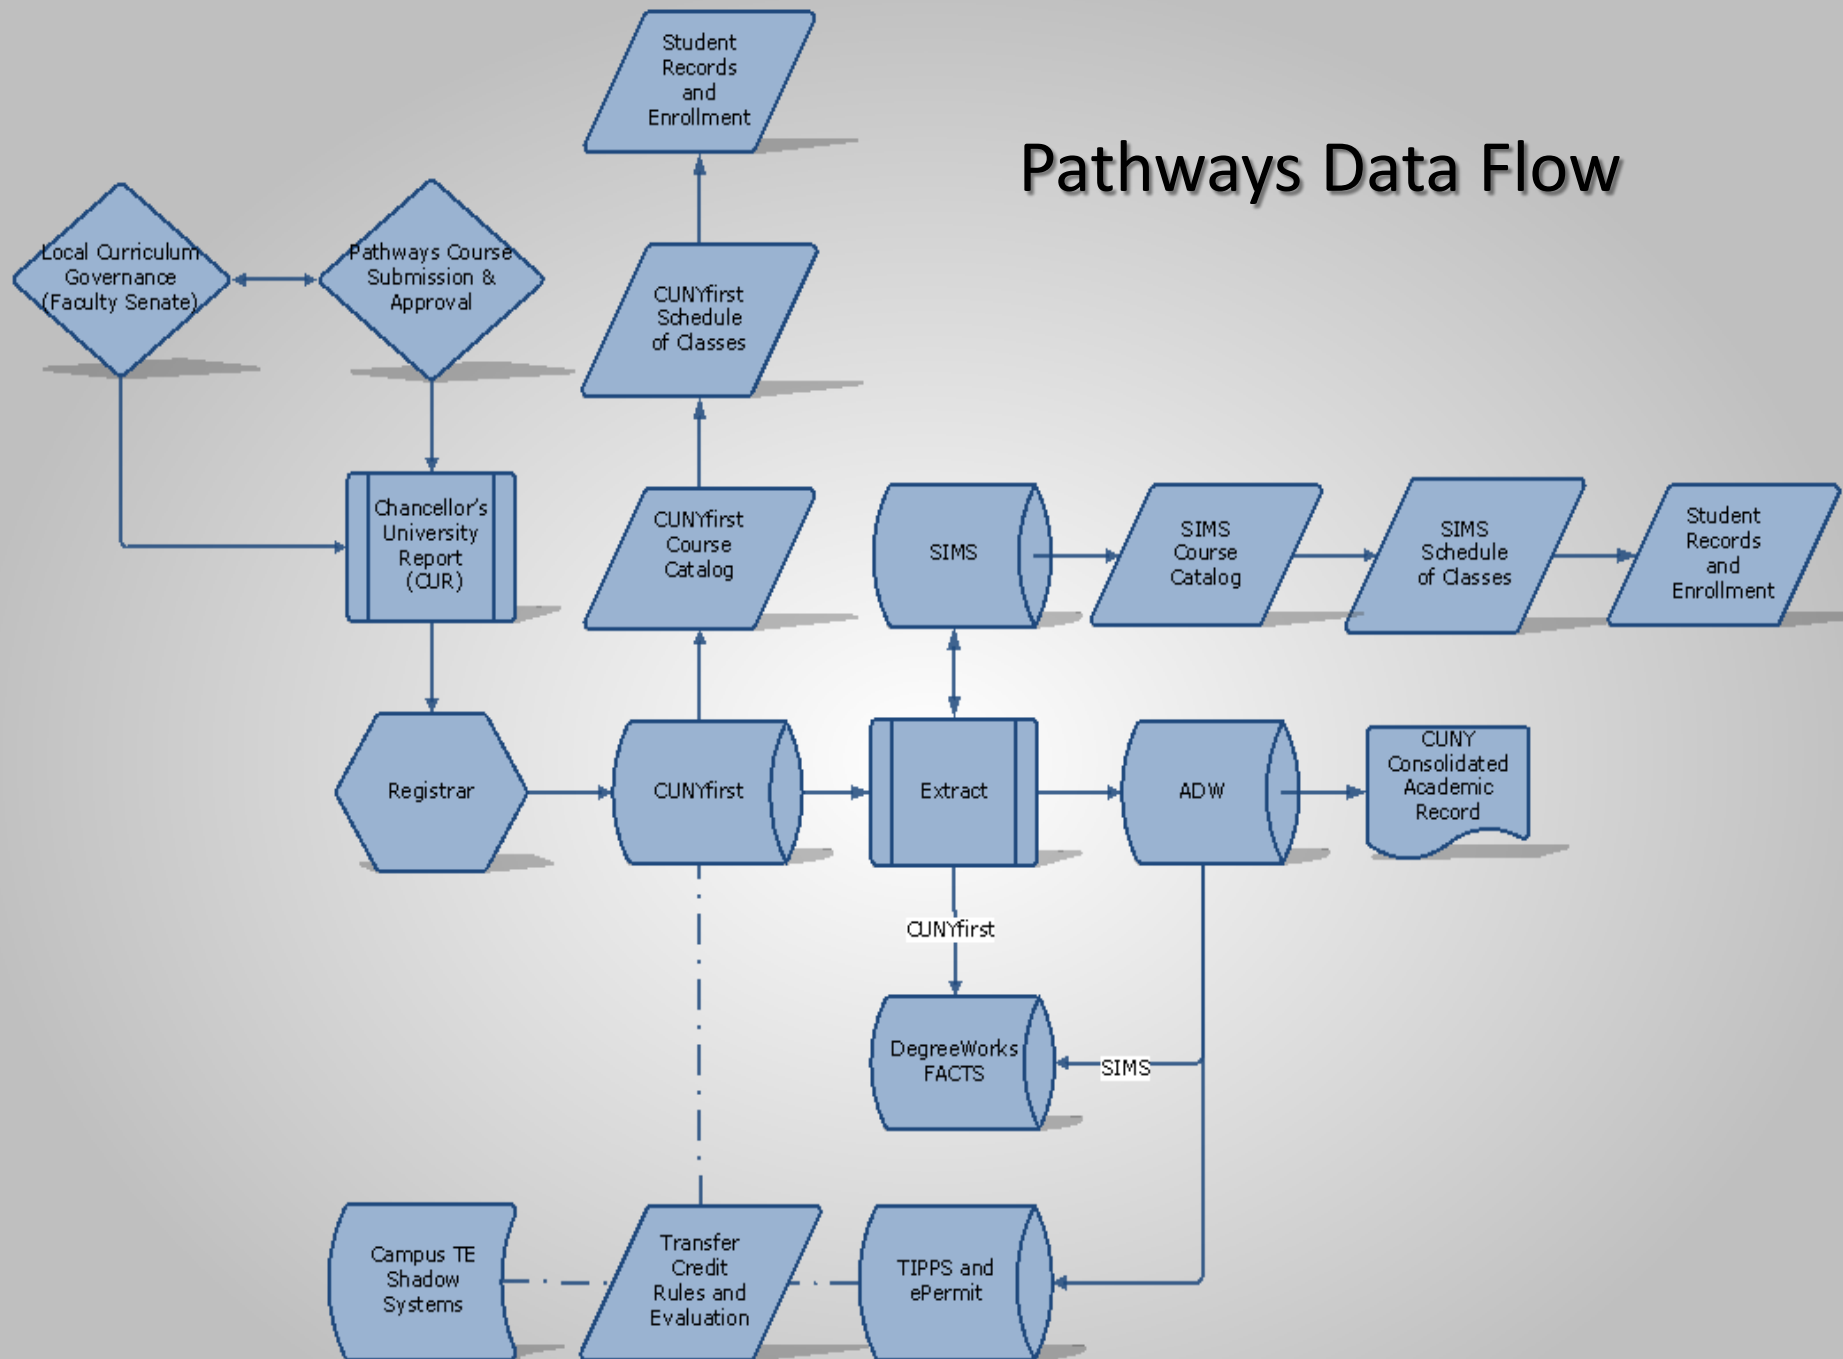

Pathways: Background

CUNYfirst is source system of record for Pathways approved courses:

Required & Flexible Common Core, and College Option

- ❖ Pathways Course Indicator: Requirement Designation (RD)
RD configured with a standard set of codes & descriptions to identify Pathways courses.
- ❖ *SIMS course master will be updated via a daily extract from CUNYfirst Course Catalog. Course Catalog in SIMS cannot be modified except by an update from CUNYfirst.*

Implementing Pathways Indicators:

- ❖ Define Pathways Course Offerings in CUNYfirst Course Catalog
 - ❖ Create new courses in CUNYfirst with Pathways RD
 - ❖ Modify existing courses in CUNYfirst with Pathways RD
 - ❖ CIS Daily Extract from CF to update ADW, SIMS (Course Master) and other legacy systems (eg. TIPPS)
- ❖ Update and maintain Pathways RD on specific sections in the schedule of classes in both CUNYfirst and SIMS
 - ❖ Class sections will default to the RD assigned in the course catalog. For courses that are defined in more than one course list within the Pathways areas where there is the need to assign more than one RD for a course, Colleges will be able to modify the default Pathways RD on sections of a given course. Sections with different Pathways RD may be offered as combined sections taught by the same faculty in the same meeting time and place

Q: How do I define a course that has been approved for more than one area of pathways?

Although a course can only have one pathways designation defined in the course catalog of CUNYfirst you can configure more than one Pathways designation (different from the course default) at the section level. In order to accomplish this the registrar will need to create two sections combined and modify the default pathways designation to the alternate area on one of the two sections. Where a course has been approved to potentially satisfy one or another pathways area the college will need to identify the default area in the course catalog. It is suggested that the course description include a statement with regard to the potential pathways areas satisfied by successfully completing the course.

Transfer Evaluation Basic Guidelines for Pathways

- Successfully completed courses approved to satisfy Pathways and College Option requirements at one CUNY College will transfer for credit to fulfill the same area of Pathways Common Core or College Option to all CUNY colleges regardless of specific course equivalent*.
- Pre-Fall 2013 successfully completed courses will assume the same area of Pathways as its Fall 2013 Pathways designation and will transfer for credit to fulfill the same area of Pathways Common Core or College Option to all CUNY colleges regardless of specific course equivalent*.
- Courses transferred from NON-CUNY colleges will be defined for the purpose of satisfying Pathways requirements by the initial receiving college in which the student enrolls for a given articulation term. NON-CUNY courses once transferred and defined by the initial receiving college will retain the same area of Pathways as its initial CUNY equivalent in the event of any subsequent transfer within CUNY regardless of specific course equivalent*.
- Where the source courses from any sending college have yet to be defined for pathways and the equivalent course at a receiving college satisfies a Pathways area or College option, the receiving college Pathways designation will define the course and be retained going forward and in the event of any subsequent transfer or future Pathways decisions regarding the source course.

- ****Where no specific course equivalent exists for a transfer of prior enrollment or transferred course which had previously been defined for Pathways, the receiving college will use a blanket credit Pathways Course (a.k.a. pseudo course) with the appropriate Pathways designation to record the credit and satisfied area. Courses to be used uniformly across CUNY are:***

Transfer Credit Evaluation

- ❖ Use CUNYfirst Automated or Manual Update
- ❖ Use TIPPS for CUNY to CUNY course equivalents
- ❖ External databases such as XCES @Hunter, TES @ CSI, BEST @ Brooklyn etc.

Remember...

Transfer equivalent courses always inherit the sending college Pathways designation when one is defined.

Pre-Fall 2013 Enrollments:

- Will inherit the Fall 2013 Pathways designations for any existing course that has been defined for pathways.
- Will transfer with their inherited designation when defined at the sending college

Pathways Requirements - DegreeWorks

DegreeWorks key tool used to educate and guide students and advisors on the new General Education requirements and modifications to the degree programs.

What-If function helps students evaluate the benefits of opting-in to the new General Education and degree requirements.

Pathways Requirements - DegreeWorks Updates

Ellucian has been contracted to:

- ❖ Scribe the University's Undergraduate Programs – effective Fall 2013.
- ❖ Modify other areas of the degree programs – major, minors and elective blocks effected by the change in Gen Ed requirements.
- ❖ Modify existing programs to include new Pathways courses.

DegreeWorks New Functionality

New Enhancements

- ❖ Add catalog year to What-If for General Education requirements
- ❖ Create General Education Transcript or Progress Bar
- ❖ Update the Educational Planner:
 - ✓ Add a term on course offering selection- morning, afternoon, evening
 - ✓ Create a link to campuses electronic advisement docs
 - ✓ Create a field to store student's Educational & Career goals
- ❖ Customize Reports

Opting-In To Pathways

- ❖ Students should consult with an advisor and review the benefits of opting-in to Pathways.
- ❖ Students who choose to opt in must inform the Registrar
- ❖ CF Student Program Requirement Term or SIMS Catalog year Override must be updated upon Opt-in Notification

Opt-In Business Process

Conceptualized

1. Select student population **defined by the College**
2. College to send notification to selected students.
3. Self-service checklist **added to select student population**
 - a. For colleges that require advisement prior to choosing pathways,
 - Add checklist “Find out more about Pathways” and positive service indicator to pursue advisement for pathways.
 - “Choose Pathways, Yes or No” checklist added by the advisor.
 - b. For colleges that do not require advisement ,
 - “Choose Pathways, Yes or No” checklist added in mass for select student population
4. Students may select “Find out more about Pathways” Which will open a link to the pathways checklist item with links to the pathways website and details regarding pathways requirements.
5. Students may select “Choose Pathways, Yes or No” which will open an e-form that upon submission will update CF checklist items and if “Yes” program plan stack (ore catalog override in SIMS) with pathways requirement term.
6. SIMS data stored in Comments for Catalog override and the program requirement term in CUNYfirst are currently used in Degree works

Student Self-Service Opt-In is still under development

Student Center To Do List:

The screenshot displays the 'Your's Student Center' interface. It features several sections: Academics, Finances, Holds, To Do List, and Enrollment Dates. The 'To Do List' section is highlighted with a red box and contains the text: 'Find out more about Pathways Choose Pathways, Yes or No' and a 'details' link. The 'Academics' section includes links for 'My Class Schedule', 'Shopping Cart', and 'My Planner', along with a 'SEARCH FOR CLASSES' button. The 'Finances' section includes links for 'My Account', 'Account Inquiry', 'Financial Aid', 'View Financial Aid', and 'Direct Loan Processing Form'. A message box in the center states: 'We are unable to display your account at this time. To access this information, contact the Bursar's office to complete your account profile.'

SIMS Opt-In Notification via eSIMS is still under development

Starting in Fall 2013, CUNY will implement the [Pathways](#) initiative across its undergraduate colleges. Pathways establishes a new system of general education requirements and new [transfer guidelines](#) across CUNY--and by doing so reinforces CUNY's educational excellence while easing student transfer between CUNY colleges. CUNY's new general education framework is a central feature of Pathways. It lays out requirements that undergraduate students across CUNY must meet. Importantly, it also guarantees that general education requirements fulfilled at one CUNY college will carry over seamlessly if a student transfers to another CUNY college.

The centerpiece of this initiative is the 30-credit general education Common Core. The Common Core consists of 12 credits towards the Required [Common Core](#) and 18 credits towards the Flexible Common Core. Continuing students who entered CUNY prior to Fall 2013, along with students who have taken an absence of only *one* semester, can choose whether they wish to complete the existing degree requirements or change to Pathways. Students wishing to change their existing degree requirements to Pathways must [opt-in](#). Students who opt-in to Pathways are subject to the following terms:

- o Changing to Pathways will change the existing degree requirements needed to obtain an Undergraduate degree.
- o Changing to Pathways will require students to take Pathways approved courses.
- o Changing to Pathways may require students take additional credits, which may extend the anticipated graduation date.
- o Changing to Pathways may cause previously completed general education coursework to *not* count towards general education Pathways requirements.
- o Once a Pathways Common Core requirement is completed, this requirement is also considered fulfilled upon [transfer](#) to any other CUNY college.
- o Due to the change of general education requirements under Pathways, a student's eligibility to receive [Federal and State Financial Aid](#) may be affected.
- o Students who decline to Opt-In to Pathways will still be required to fulfill Pathways requirements at all other CUNY colleges upon transfer.
- o Pathways ensure courses successfully completed under the Common Core transfer to any other CUNY college; however, students must still meet transfer admission requirements to be accepted to specific CUNY programs and colleges.

☐ Yes, I choose to Opt-In to Pathways ☐ No, I choose to follow my current requirement catalog

E-permit

- New students, with few exceptions are approved for permit in their first term at a college.
